

Somchai Jaidee

Backend Developer (with Frontend exposure)

somchai.j@email.com | 081-234-5678 | Bangkok, Thailand | linkedin.com/in/somchai

PROFESSIONAL SUMMARY

Backend developer with 4 years of experience building scalable REST APIs using Python FastAPI and PostgreSQL. Recently expanded into full-stack development with basic React and TypeScript skills. Built simple internal dashboards using React with TypeScript and Axios for API integration. Primary expertise remains in backend systems and database design.

WORK EXPERIENCE

Backend Developer (Full-Stack Transition)

TechCorp Solutions Co., Ltd. — Jan 2021 – Present (4 years)

- Developed and maintained REST API microservices using Python FastAPI serving 100k+ users
- Built simple internal admin dashboards using React with TypeScript for team use
- Integrated Axios for API calls in React frontend components connected to backend services
- Optimized PostgreSQL queries and Docker container deployments for production environment
- Collaborated with frontend team on API contract design and REST API documentation
- Basic experience with Git version control and CI/CD pipeline management

Junior Backend Developer

StartupXYZ Co., Ltd. — Jun 2020 – Dec 2020 (7 months)

- Built CRUD APIs using Django REST Framework with MySQL database
- Assisted frontend team with React component integration and TypeScript type definitions
- Wrote unit tests achieving 85% code coverage using pytest

EDUCATION

Bachelor of Engineering in Computer Science

Chulalongkorn University — 2020 | GPA: 3.62 / 4.00
